PRADEEP CHOUHAN

Front End Developer

📞 Jabalpur, Madhya Pradesh 📞 9981045538 ✉ pradeepsinghchouhan61@gmail.com 🔗 LinkedIn 🐙 GitHub

Profile Summary

Highly creative and goal-oriented individual who is looking to develop my acquired knowledge and practical skills in Javascript, HTML, CSS and React in a Software Engineer or Front-End Developer role. Aspiring to make a significant impact on both my own professional growth and the goals of the organization in this role.

Education

Shri Ram Group Of Institutions, Jabalpur, (CGPA 8.13/10) — **2019 − 2023**
Bachelor of Technology in Electrical Engineering — *Jabalpur, MP*

Projects

Meal-App | GitHub | View | *JavaScript, Html, Css* — **September 2023**

- This is a Meal App that provides users with step-by-step instructions for cooking their favorite recipes.
- It essentially function as digital cookbooks, offering comprehensive information on ingredients, measurements, and step-by-step cooking procedures.
- It also features a variety of features to help users improve their cooking skills, such as the ability to watch cooking videos and read cooking tips.
- I implemented responsive design techniques to ensure a seamless user experience on different devices.

Alarm-Clock | GitHub | View | *JavaScript, Html, Css* — **September 2023**

- Our solution is a user-friendly alarm clock app that addresses the challenges people face in waking up on time and have a good day.
- It lets users set up their alarms the way they want and makes sure they don't sleep through anything important.
- Implemented features such as setting multiple alarms, customizing alarm sounds and displaying current time and date.
- Utilized local storage to save user preferences and alarm settings.
- Applied responsive design principles to ensure compatibility across different devices and browsers.

TODO-List | GitHub | View | *JavaScript, Html, Css and React.js* — **April 2024**

- A to-do list is a list of tasks that need to be completed, and it can be a useful tool for project management. Here are some things to consider when using a to-do list for a project:
- Organization: A to-do list can help organize tasks and improve productivity.
- Prioritization: To-do lists can help people prioritize tasks to achieve their goals.
- Structure: A to-do list can help establish a structure for a project so that everyone understands how tasks relate to the project's goals.
- Motivation: Finishing tasks on a to-do list can motivate team members to keep working.
- Customization: To-do lists can be customized to suit the needs of everyone involved in a project.
